

PRESS RELEASE

“Advanced Medical Strategies Partners with Samaritan Fund Program to Support Individuals Facing Challenging Medical Diagnoses.”

Lynnfield, MA – July 27th, 2023 – Advanced Medical Strategies (AMS), a leading healthcare affordability software company providing clinical insights and financial analysis for complex medical claims, is thrilled to announce its partnership with the Samaritan Fund Program, an organization dedicated to easing financial burden and providing peace of mind to individuals navigating difficult medical diagnoses.

The partnership aims to empower Samaritan Fund Program to further its mission to deliver The Peace of Mind to Heal to participants facing tough medical diagnoses by accessing AMS' industry-leading tools to evaluate high-cost diagnoses that most impact participants financially. AMS' robust affordability platform, including PredictRx and PredictDx housed on the Predict Platform, will be instrumental in delivering the Program to more individuals and communicating eligibility more effectively to stakeholders.

"We are excited about our partnership with Advanced Medical Strategies, a renowned affordability platform in the healthcare industry," said a representative from the Samaritan Fund Program.

"Their invaluable business insights and data-driven solutions have positioned them as a crucial ally in our mission to support individuals during challenging times. Together, we will improve accessibility and affordability of healthcare for all our participants."

Through the utilization of the Predict Suite, the Samaritan Fund Program will gain deep insights into catastrophic diagnoses (PredictDx) and specialty drugs (PredictRx), allowing for targeted cost analysis and informed decision-making. This partnership will enable the Samaritan Fund Program to provide accurate cost analytics and ensure effective communication with those they serve. Peter Borans, CEO and Founder of AMS, expressed enthusiasm for the collaboration, stating, "We are excited to see the Samaritan Fund Program leverage AMS' Predict Suite to innovate risk management in the employer space. We remain committed to supporting their mission."

About AMS:

AMS' AI-powered Predict Platform is the industry's first cloud-based enterprise software to integrate custom modules that target price transparency, clinical insights, and financial benchmarks. Focused solely on analyzing the most expensive and complex claims and accompanying financial impact, AMS provides Health Plans, MGUs, TPAs and Stop-Loss Carriers with enterprise benefits to help improve medical spend and positively impact healthcare affordability. We believe that "Knowledge is Power".
